After the 21 day upgrade period has passed, you may still upgrade (to Platinum ONLY) with a onetime \$900 wholesale purchase or by accumulating wholesale purchases that total \$1800 in any one calendar month.

1. Retail Profit

As an AMEGA Business Associate (BA), you may purchase products at the wholesale cost and resell those products at the retail price. This wholesale to retail markup is up to 10%. You may also sell product on your BA Replicated Website and your retail commission will be included in your commission check that you may track online, in your Back Office.

When customers purchase products from your BA Replicated Website, the corresponding Business Volume (BV) counts as your 1st Generation Group Business Volume (GBV) where you receive an additional 10% commission.

2. Preferred Customers

A customer who does not wish to become a BA but still wants to order consumable products on a monthly basis may become a Preferred Customer. Preferred Customers purchase at the BA wholesale price in exchange for enrolling in a monthly automatic shipment program. They can cancel at any time. The volume from your Preferred Customers counts as your 1st Generation GBV where you receive a 10% commission!

3. Fast Start Bonus: 10%

You will earn a Fast Start Bonus every time you personally enroll a new BA who purchases a Silver, Titanium or Platinum Package, or upgrades within 21 days. The Fast Start Bonus is 10% of the BV generated by the new enrollee purchase, not counting the Business Kit.

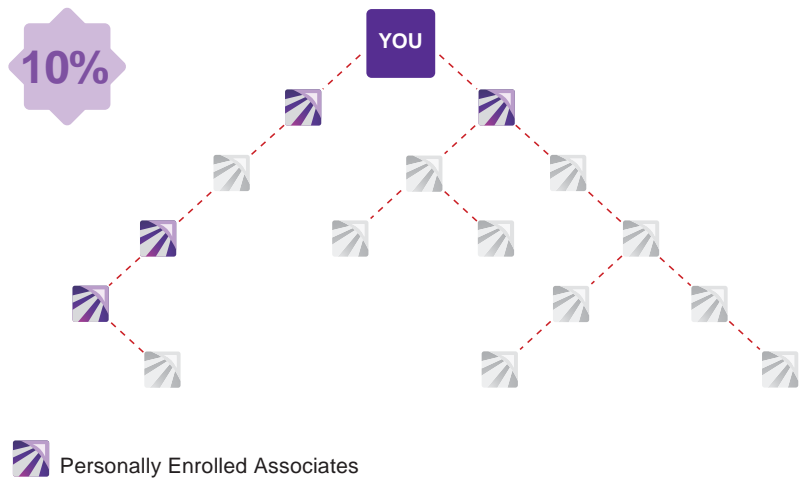

4. Team Binary Commissions

Team Binary Commissions are based on a two-legged Binary structure that pays an Active, Qualified BA a 10% commission of the Group Business Volume (GBV) on the side of the Binary with the lesser amount of GBV. This commission is paid on enrollment orders and upgrades only and is calculated daily/paid weekly with a monthly requirement to be Active (60 BV) and also maintain one Active, personally sponsored BA on each side of the Binary. If a BA is Active but no commission is due, the strong side volume continues to hold and grow from month to month with no limitation. However, after 6 months of inactivity, volume will be flushed on the strong side from the first of the six months only, and will continue each month until the BA is Active.

BV requirements only apply to one single BA and not each and every Business Center held by a BA.

There must be at least 200 GBV in the lesser leg or the payout will carry to the next day. Any Business Center that has achieved the maximum payout for a particular day will have the matching unpaid BV on both legs flushed to avoid overpayment. The unmatched BV in the stronger leg will be carried forward to the next day.

The Builders Pool is designed specifically for Business Associates who are new to the business and are aggressively working toward the higher levels of the compensation plan. Amega wants to reward these valuable future leaders with this potentially lucrative pool.

For every 1000 BV increase in the lesser leg, over and above the volume of the lesser leg in the month prior, the BA will receive one share of the Builders Pool. This is an amount equivalent to 1% of the total Country Pool Commission that is paid by the company, split to a share value. This pool is open to Active, Qualified Business Associates and Diamonds. Blue Diamonds and above do not qualify for this pool.
